BRIDGE REHABILITATION WORK BEGINS IN GOSHEN
NH ROUTE 10 OVER SOUTH BRANCH SUGAR RIVER

The New Hampshire Department of Transportation announces the start of bridge work on NH Route 10 in Goshen.

This project involves the rehabilitation of the NH Route 10 bridge over the South Branch Sugar River, and approximately 700 feet of road work.

Temporary signals will be used to control alternating one-way traffic crossing the bridge. Motorists traveling through the project on NH 10 in Goshen can expect minor delays.

Frank W. Whitcomb Construction Corp. of Walpole, New Hampshire is the prime contractor for the \$524,000 project, which has a scheduled completion date of September 24, 2004.
